Gemini Tutorial

Google's AI assistant — writing, research, images and voice — Free preview

Gemini is Google's AI assistant. You can use it at gemini.google.com or in the mobile app. With a Google account you can start on the free plan — no card needed.

Gemini can write, answer questions, read files and summarize them, research a topic and write a report, create and edit images, and hold a spoken conversation with Gemini Live.

What is it?

Gemini's strength is its link to Google — it can work with Gmail, Google Docs, Drive and Calendar (more on paid plans). And in Deep Research mode it reads hundreds of websites and writes a report with sources.

In this guide you will learn: how to start Gemini, which everyday tasks to use it for, how to write good prompts, and the free plan's limits.

How to start — a glimpse

1. Open gemini.google.com or download the Gemini app.
2. Sign in with your Google account — the free plan starts by itself.

📚 Get the full guide in the app — 10 Stars / 10 ZERO

Open @BazarGooBot on Telegram → “🛍️ দোকান খুলুন” → 📚 My PDFs — you will find this guide there. Buying gives you both the Bangla and English versions.
